

HARENA 26

GENERAL INFORMATION

-  **Dimensions:** 8,48x5,84x2,30
-  **Total height:** 2,30 m
-  **Free fall height:** 0,65 m
-  **Falling area (M):** 11,44x9,53
-  **Falling area (QM):** 109,02 qm
-  **Age group:** 1,5 and older
-  **Catalog page:** Page 35

With its modern components, the modular toddler sand play system **HARENA** brings children between the ages of 1.5 and 5 years a lot of play fun for many years and supports the development of cognitive, motor and social skills of the little peoples with age-appropriate play features. **HARENA** offers a wide range of products for playing with sand and water, which is very popular with toddlers and important for their psychological development. Shovels, mud kitchens, mill wheels, sieves, transport sledges, rotating bucket cranes, wall elements with pouring pipe and many other innovative play modules, all are an inspiration for creative use of the playground equipment. In this way, they always provide new fun and a varied learning experience on the playground. **HARENA** combines

challenging and innovative concepts of play with high-quality and sustainable materials and a high degree of flexibility. The timeless design with primary colours gives children's imagination every liberty and at the same time inspires them to move, be creative and have exciting adventures. With optionally printed or engraved designs and decorative applications on the HPL or wooden parapets, unique themed play attractions can be created that will delight young and old alike.

HARENA - PURE PLAY FUN!

The modular construction principle of the KIT+ system makes it possible to individually design age-appropriate and safe play facilities in any size and style. Everything fits together and can be combined with each other. The extremely stable posts are available in three versions:

- Larch wood - untreated, incl. hot-dip galvanised post shoes.
- Stainless steel - glass bead blasted
- Color - powder-coated stainless steel (RAL colours)

MATERIAL

- Outdoor HPL (High Pressure Laminates)
- Larch, Duolam
- Stainless steel, glass bead blasted
- Steel, hot-dip galvanized (post shoes)
- Polyethylene (HDPE)
